

Cat6Plus Shielded Keystone Jack

SHIELDED KEYSTONE JACK

We are pleased to introduce our new Cat6Plus Keystone Jack. This jack combines easy installation with a premium electrical performance. The jack complies with all of the performance requirements for Class E systems, it is backwards compatible to Class D and it is also ready for the 10 Gigabit Ethernet application. The innovative housing design enables fast and efficient wire terminations without the need for a separate punch down tool. The products' compact dimensions allow 24 jacks to be positioned in one row in a 1U panels and 2 'side by side' in European style 45 x 45 outlets, allowing clear and simple port labeling.

PRODUCT DESCRIPTION:

The Cat6Plus Snap-In-Jack offers true Category 6 component performance and quick tool-free wire termination with push down wire manager. The metal housing of the Keystone Jack is designed to provide a superior electromagnetic shielding performance. The jack is fully compatible with all our UK and continental style faceplates and products. Jacks are supplied with installation instructions.

Cat6Plus Shielded Keystone Jack

PRODUCT CHARACTERISTICS:
