Product Overview

Excel keystone jack patch panel frames are available for mounting of the range of shielded and unshielded Excel toolless keystone jacks. Two finishes are available, a traditional black facia design and a new chrome finish which when used with the recently introduced chrome patch cable management bars brings an entirely new, aesthetically enhanced finish to cabinet installations. Each are available with a maximum port density of either 16 or 24 keystone jacks in 1U of rack space.

A rear management tray with purposely designed cable tie positions, is supplied with each panel which is fitted without the need for any tools or fixings by simply snapping it into place.

To complete the installation an earthing kit, and a set of M6 cage nuts is also supplied with the patch panel frame.

Part No 100-025, Unloaded 16 port 1U Black Patch Panel Frame with rear management tray.

Part No 100-028, Unloaded 24 port 1U Chrome Patch Panel Frame with rear management tray.
